ABOUT

With a deep love for art and creativity, I chose to study architecture because I was always fascinated by how these blend with mathematics to create stunning geometric designs. However, my intrigue with the internet and computers led me to consider a career change. Once I started exploring this world, I was blown away by what I found. So, I decided to dive in headfirst to figure out all the amazing possibilities it offers.

EXPERIENCE

ARCHITECT KLM Architekten und Ingenieure GmbH Leipzig I Jun 2021 - Jun 2023

- Completed complex architectural designs within tight deadlines and budget constraints using advanced software programs to create detailed 3D models.
- Execution planning, detail creation, review, coordination, and incorporation of technical drawings from various specialist planners.

ARCHITECT W&V Architekten GmbH Leipzig I Jan 2017 - Jan 2021

- From new constructions to project rehabilitations, my main focus was the design planning of the first stages up to approval documentation preparation.
- Developed within a team projects for several award winning competitions.

EDUCATION

WEB DEVELOPMENT BOOTCAMP Ironhack Remote I Jan 2024 - Mar 2024

DIPL.-ING. ARCHITECT Polytechnical University Valencia I Sep 2018 - Sep 2016
