PROJECTS - GITHUB

 DEV. PORTFOLIO - Website that displays my latest projects as a developer

HTML - CSS - JS - REACT

 PLANTIPIE - MERN application that serves as tracker to help you take care of your plants. You can create a user and generate your own plant database. For every plant profile you can develope a care plan with reminders on how to keep it alive

HTML - CSS - TEILWIND - JS - REACT - NODEJS - EXPRESS - MONGODB

 WANDERWORLD - CRUD React application that displays information about trips as a travel agency. It's possible to create new travel destinations, see the current ones displayed and save them to favorites and also update or delete them

HTML - CSS - SASS - JS - REACT - VITE - JSON

 ARCH. PORTFOLIO - Web dedicated to store my architecture projects and experience

HTML - CSS - JS - REACT

 PIKA-SHOOT! - Game where you can move, jump to avoid obstacles and shoot enemies

HTML - CSS - JS

EXPERIENCE

ARCHITECT KLM Architekten und Ingenieure GmbH Leipzig I Jun 2021 - Jun 2023

As a key member of my team I consistently delivered **high-quality work** completing complex architectural designs that not only surpassed client expectations but also met **tight deadlines**. Through strong **coordination skills**, precise **time management**, and meticulous **attention to detail**, I successfully brought diverse teams together, ensuring flawless execution and achieving remarkable outcomes in every project.

ARCHITECT W&V Architekten GmbH Leipzig I Jan 2017 - Jan 2021

In the competition department, I spearheaded initiatives that led to notable achievements, including securing **prestigious awards** and recognition. My capacity for **rapid skill acquisition** and **multi-disciplinary development** rendered me a versatile asset within the company. Adapting swiftly to diverse teams, I consistently thrived, contributing to the success of various projects across different fields.
